

WITH OUR AIRLINE
ONLINE RESERVATION SOLUTIONS
WE GIVE WINGS TO YOUR BUSINESS

ABOUT US

With innovative software solutions that we brought into both of sectors; tourism and aviation, we strive to add value to the brands of our clients.

We used the experiences we gained by working shoulder to shoulder with tour operators, travel agencies and consolidators for 20 years in order to add value to the businesses of our partners and create everlasting success stories.

Today, we continue to facilitate the work of our clients by keeping track of ever-developing technology. With the advantages presented by TURSYS, we create new advantages to support businesses in reaching high efficiency rates.

Why TURSYS

With our web-based applications, wherever there is an internet connection, we are right by your side.

We provide support 7/24 with our professional technical team.

We present user-friendly, advanced and effective backoffice services.

We provide easy and effective GDS and XML integration with Tursys Pool.

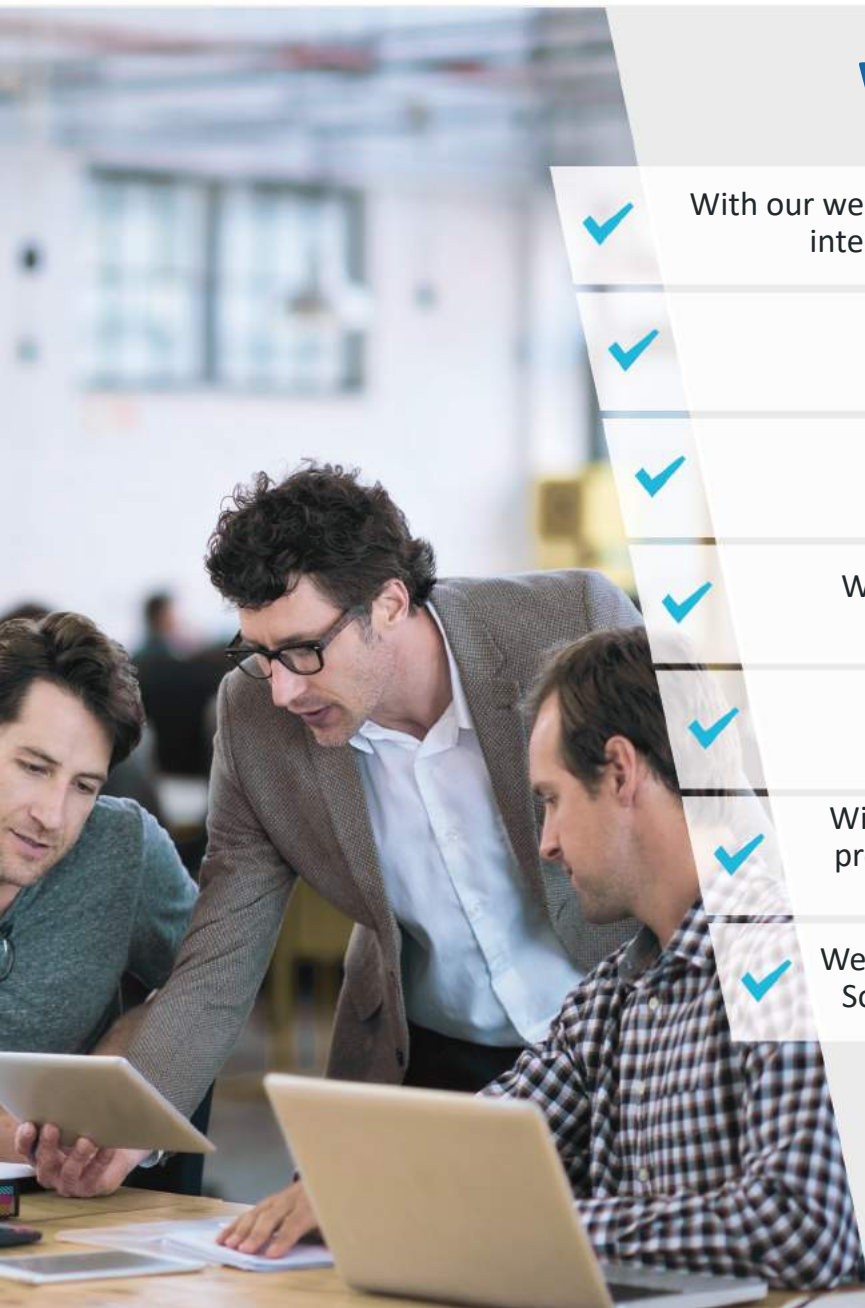

We keep track of the latest technological advances and use this information in the architecture of web/mobile apps.

With modular programming architecture, we provide the opportunity to develop a system that is in line with the needs.

We develop solutions that are in line with the Software as a Service (SaaS) working model.

WITH AIRLINE ONLINE RESERVATION SOLUTIONS THE KEY IS IN YOUR HANDS

We know the system needs of scheduled, charter & split-charter operated airline companies. That is why we make sure that our partnered airline companies move fast. With our online reservation and management systems we provide the most reliable solution for your business.

Profitability: Rising with technology

Airline Online Reservation Solutions, which were developed with the latest technologies in the sector, minimize the business and operation costs of our clients and provide them with the opportunity to obtain top quality services with the lowest costs whenever they want.

Partnering with your power, supporting your business

In addition to daily reservation operations, there are many issues that need the attention of business managements. Our Airline Online Reservation Solutions save our clients time, help them using sector's other opportunities in and make life easier.
